Wherever Smart Everything Is, You'll Find Synopsys

Synopsys technology is at the heart of innovations that are changing the way people work and play. Self-driving cars. Machines that learn. Lightning-fast communication across billions of devices in the datasphere. These breakthroughs are ushering in the era of Smart Everything—where devices are getting smarter and connected, and security is an integral part of the design.

Powering this new era of innovation are high-performance silicon chips and exponentially growing amounts of software content. Synopsys is at the forefront of Smart Everything with the world’s most advanced technologies for chip design, verification, IP integration, and software security and quality testing. We help our customers innovate from silicon to software so they can bring amazing new products to life.
